About Us

SeriousInternet

The world has changed and we need to change with it...

The way we connect is changing; 70% of employees want to work flexibly. Our habits are changing; 75% of CEOs forecast that video conferencing will replace conference calls. And the way customers buy is changing; digital interactions rose from 36% to 58% globally in just 6 months last year.

Serving a niche market we focus on implementing two or more simultaneous Internet connections throughout UAE. Comet Technology has built its reputation on assurance of quality service. We have dedicated our efforts and resources by staying on the leading edge of the Internet industry while remaining sensitive to the changing needs of our customers.

Delivering every project on time and within budget is our objective. We utilize modern quality control practices in our daily approach to business. These practices have increased our productivity and improved our quality of service by providing the cost effective solutions our customers demand in this high-tech industry.

Talk with our team about how we can develop a solution that fits your specific business needs.

SeriousInternet

WHEN NO INTERNET IS NO OPTION
- Modern working / schooling needs high speed and uninterrupted Internet
- Working from home also requires high speed and reliable Internet
- Did you know popular broadband connections have no QoS guarantees?
- No Internet or slow Internet means work / school stops. **The Cost?**

SERIOUS ABOUT INTERNET
- **Serious**Internet aggregates the bandwidth of two or more Internet connections giving increased speed and improved availability.
- When one connection is down, you can still rely on the other connections to keep working.
- When all the connections are up, you enjoy combined speeds.

EFFECTIVELY ANSWERS
ALL THESE QUESTIONS
- Is Internet in your area slow or unreliable?
- Are your applications timing out?
- Do you have connections over utilized or under utilized?
- Have you considered the cost of not having Internet?

THE GOLD STANDARD
OF INTERNET CONNECTIONS
- Managed service with monitoring
- Single point of contact
- Expedited expert service and technical support
- Configuration management and updates
